

# DEEOIC DME Equipment and Supplies Auth and Bill Processing Changes

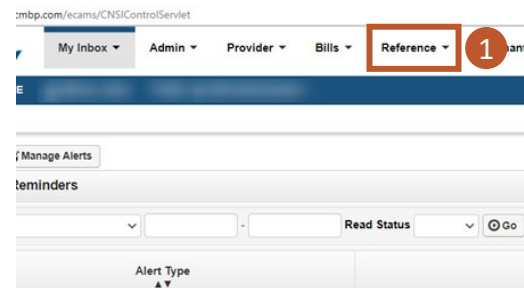

## DOL Staff Quick Reference Guide

Effective 06/24/23, a separate DEEOIC Durable Medical Equipment (DME) supplies and accessories authorization is not required if a rental authorization is approved for the related DME and service dates are within the rental period, or a purchase authorization is approved for the related DME and service dates are within three (3) years of the purchase period. New limits have been defined for DEEOIC DME codes and some new Utilization Review (UR) edits have been implemented.

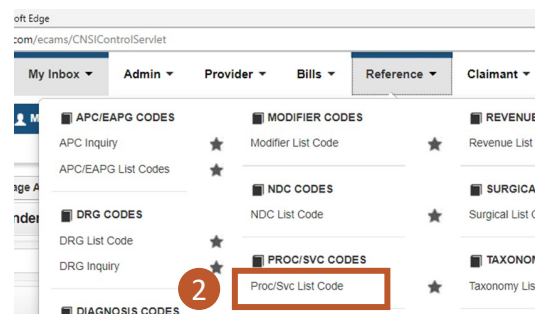

A new billing edit – 90974 – has been developed to post as pay and report to inform Department of Labor (DOL) staff about DME supply bills that have a valid related DME authorization in the system. This quick reference guide walks through these changes.

### Viewing Associated DME Screen in the WCMBP System
