

## Selecting a Program

There are multiple ways to search for a Provider. This quick reference guide walks through the steps of searching for a Provider. Fields annotated with an asterisk are mandatory.

1. From the **Program Name** drop-down list, select the program.

**Note:** The **Program Name** field is mandatory. Only one program can be selected at a time.

The screenshot shows the eGAMS HOE Provider Search interface. The 'Program Name' dropdown menu is open, showing options: DCMWC, DEEOIC, and DFEC. The 'DFEC' option is highlighted. The 'Provider List' section below shows 'No Records Found!'.

When **DFEC** is selected from **Program Name**, the field **Active Billing (Any Program) In** appears with a drop-down list that allows users to search against all active Providers or Providers who have submitted bills in the last 12 months. This field is mandatory.

**Options:** **Last 12 months** (default) returns a list of all active providers who have billed the DFEC program within the last year; **All** returns a list of all active providers, rather than checking for DFEC program only.

The screenshot shows the eGAMS HOE Provider Search interface. The 'Program Name' is set to 'DFEC'. The 'Active Billing (Any Program) In' dropdown menu is open, showing options: Last 12 months, All, and Last 12 months. The 'Last 12 months' option is highlighted. The 'Provider List' section below shows 'No Records Found!'.

## Provider Search Options

1. After selecting the program, proceed with one or more of the following three options to search for a Provider, as there are multiple ways to further narrow down the search, and selecting more than one option will provide more precise results.
  - Searching for a Provider Using Provider Name or Business Name
  - Searching for a Provider Using Provider Type and Specialty
  - Searching for a Provider Near Your Location

**Note:** Selecting the **Servicing Providers within the Group Practice** checkbox will display the Servicing Providers associated with the Group Practice in the search results.
