Claimant Eligibility
Introduction

This tutorial provides the steps on how to check claimant’s eligibility in the new Workers’ Compensation Medical Bill Process (WCMBP) System.

The benefits of checking a claimant’s eligibility allows providers to:

• Know if the claimant is eligible for services prior to treating the claimant.
• Know if an authorization is needed prior to reimbursement.
• Know the injuries and/or occupational diseases the claimant is eligible to be treated for.
• Eliminate common bill denials.
The claimant eligibility function provides the claimant’s accepted conditions, as well as whether an authorization is required for the intended medical service(s).

- **Accepted Conditions** are the diagnosis (DX) code(s), describing the injury or illness that has been accepted by DOL.

- **Eligibility** for an accepted condition identifies that there are predetermined set of services that are payable for the claimant’s injury.

- **Authorization Levels** determine if a service requires an authorization.
  
  - **Level 1** = No Authorization required
  
  - **Level 2** = Authorization Required – 1 tier process
  
  - **Level 3** = Authorization Required - 2 tier process
Accessing Claimant Eligibility in the WCMBP System

How it works:

1. Log in to the WCMBP System. The system will display the default Select a Provider ID Number page.

2. Select the *appropriate profile* “Ext Provider Bills Submitter” from the drop-down menu.

3. Click on the "Eligibility Inquiry" hyperlink in the column on the left under Claimant.
